

Richardson Metals, Inc.
Precision Aluminum Extrusions

July 10, 2023

To whom it may concern:

Based on information obtained from our raw material and outside service vendors, this letter is to certify that all parts manufactured by Richardson Metals Inc are compliant to the RoHS3 directive version 2015/863 (aka EU RoHS3). All items manufactured or purchased by Richardson metals contain less than the maximum allowed concentration as defined in the table below.

The table below lists the ten substances restricted by the Directive and the maximum concentration values (MCV) tolerated by weight for homogeneous materials, as set forth in Annex II and III or the Directive. Annex III 6(B) exemption, which allows up to .4 weight % Lead content as an alloying element in aluminum, has been extended to May 18 of 2021 per Directive 2018/740/EU.

<u>Substance</u>	<u>Maximum Concentration Allowed</u>
Lead (Pb)	.1%
Mercury (Hg)	.1%
Cadmium (Cd)	.01%
Hexavalent Chromium: (Cr VI)	.1%
Polybrominated Biphenyls (PBB)	.1%
Polybrominated Diphenyl Ethers (PBDE)	.1%
Bis(2-Ethylhexyl) phthalate (DEHP)	.1%
Benzyl butyl phthalate (BBP)	.1%
Dibutyl phthalate (DBP)	.1%
Diisobutyl phthalate (DIBP)	.1%

If you require information with respect to coated extrusions or other types of anodized extrusions, feel free to contact us at the email address below as we address these matters on a case-by-case basis. Detailed compliance reports can be provided for your specific items; if required please send requests to: QC@richmetals.com.

Sincerely,

Randy Rieke
General Manager
